

BUILDING OWNER PARTNERSHIP

Increase Marketability & ROI

Attract Even The Most High-Tech Tenants

Before signing a lease, tenants need to know the high-speed connectivity they need is available at the price and time-frame they require.

If you are not marketing your listings' internet options, you may be losing potential tenants to other buildings, where the available options are more apparent.

When to Contact Us

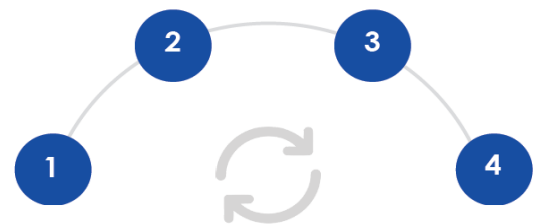

- 1. Tenant in Leases** - Include a Telecom Availability Report and Telecom Concierge for every tenant - absolutely free.
- 2. Need Better Internet** - Don't pay \$10k+ to bring in infrastructure. We can make your building high speed at the provider's cost.
- 3. Right Now** - Besides making your building more attractive, we can show you how to earn an extra \$.04/sf.

Introduction

When in leases, introduce tenant to a free Telecom Concierge. We'll help them from A to Z.

Quick Move In

Fill up your lease spaces, ensure tenants move in on time, and avoid lost rent.

Request

It's simple. Email us an address and we'll let you know what's available.

Earn Commission

You'll earn a return on your investment, while your tenants receive the guaranteed lowest rates.

We Can Help With

- BRINGING IN FIBER AT LITTLE TO NO COST
- INCREASING LISTING VALUE AND MARKETABILITY
- FINDING PROVIDERS BESIDES AT&T OR SPECTRUM
- SMART BUILDING CERTIFICATION
- CHECKING TELECOM AVAILABILITY
- REMOVE OLD MPOE EQUIPMENT

What industry experts are saying..

"Tenants now expect high-speed access in a building as much as they expect [heating, ventilation, and air conditioning] and parking."

- Richard D. Baier, BOMA
